

Ten giggling girls

*Ten giggling girls, all feeling fine
One felt sick and then there were nine*

*Nine giggling girls, thinking of things that were great
One thought of home and then there were eight*

*Eight giggling girls, eating food that tasted like heaven
One choked on some and then there were seven*

*Six giggling girls, encountered a hive
One got stung and then there were five*

*Five giggling girls, running across the floor
One slipped and broke her leg and then there were four*

*Four giggling girls, singing songs with glee
One got a soar throat and then there were three*

*Three giggling girls, saw a ghost who went boo
One got scared and then there were two*

*Two giggling girls, looking at the sun
One thought it was too bright and then there was one*

*One giggling girl, munching an out of date bun
Got food poisoning and then there was none.*
