

VAIN VICKY

Vain Vicky peered in the mirror
Wondering what she'd wear today.
Five dazzling outfits lay before her,
She loved this game to play!

Let's try the first one, it's pretty and red.
And a flattering flower to place on my head.
A tear in my dress, what a bore!
Looks like we're going down to four.

Let's try the next one, it's very bright.
It seems to be telling me "I'm the dress that's right!"
But oh no, I've worn this before
What's wrong with me? So now it's down to three.

Another dress, it's elegant and pink
A necklace? A pair of shoes? I need to think.
But there's a stain, what shall I do?
It looks like oh no...I'm down to two

Let's try the fourth one-this one looks terrible!
This is getting quite unbearable!
Four dresses later, I'm not yet done.
I can't believe it but I'm down to one.

This is it, a dazzling silver number
I look so fab, is this really over?
I'm ready to party, looking so great
Must dash now or I'll be too late...
